WORK EXPERIENCE

ViewMyRecords Pvt Ltd (Software Developer – Frontend)　　　Sep 2024 - Present

- Developing and maintaining scalable, responsive web applications for a multi-brand electric vehicle dealer platform using React.js, Redux, and Chakra UI.
- Designed and implemented a reusable React components library, reducing development time by 30% across multiple projects.
- Built and optimized user interfaces for multiple screens, ensuring smooth navigation, accessibility, and cross-device compatibility.
- Collaborated with cross-functional teams (design, backend, QA) to deliver end-to-end features aligned with business requirements.
- Implemented a comprehensive testing strategy, resulting in a 20% reduction in post-release defects and higher customer satisfaction.
- Actively participated in code reviews, bug fixing, and documentation, contributing to higher code quality and maintainability.

PROJECTS

ZugeConnect: Customer Relationship Management System

- ZugeConnect is a CRM system developed for managing and tracking sales leads and employees of ZugeElectric.
- implemented Aadhaar based user Verification and handled duplication of lead entry to system very smoothly.
- Implemented feature of managing dealers and bulk upload of dealers and employees.

RhythmRising: The Ultimate Asian Kids Dance Crew Platform　　　Project Live-Link

- Developed a Dance studio website for Asian Kids Dance Crew using React. Implemented different pages for information about contact details, types of classes timings, Instructors, Journey of AsianKids etc. Implemented a facility to directly contact Dance Instructors & other Event Bookings.
